PROFESSIONAL SUMMARY

A Fullstack Developer with 4+ years of experience and a strong specialization in mobile application development, driving end-to-end software solutions from enterprise core systems to engaging super apps using modern technologies to build scalable and user-centric applications.

WORK EXPERIENCE

PT. PADEPOKAN TUJUH SEMBILAN

Software Developer | Contract

2023-09 – Present

- Worked across frontend web, backend, and mobile development, adapting to different project requirements and technology stacks.
- Contributed to end-to-end software development, from understanding business requirements and implementing features to testing, debugging, and deployment.
- Assigned to various projects and client environments, adapting to different development workflows, technical requirements, and stakeholder expectations.
- Collaborated with cross-functional teams to deliver software solutions based on project and client needs.

Backend Developer | Apprenticeship

2023-06 – 2026-08

- Developed and maintained RESTful API endpoints to support seamless integration between server and client applications.
- Assisted in managing database systems, utilizing PostgreSQL to ensure reliable data operations.
- Collaborated with senior developers to identify bugs, perform troubleshooting, and optimize overall backend performance.

Frontend Web Developer | Internship

2023-03 – 2023-06

- Translated UI/UX design mockups from Figma into interactive, dynamic, and accessible web page components.
- Integrated frontend interfaces with API services to ensure a smooth and accurate data flow from the server to the end user.

Mobile Developer

2026-06 – Present

PT PRUDENTIAL LIFE ASSURANCE (PRUDENTIAL INDONESIA) | *Contract*

via NTT DATA Indonesia · Employed by Padepokan Tujuh Sembilan

- Developed and maintained cross-platform mobile applications using Flutter and Dart for Prudential Indonesia.
- Implemented new features and enhancements based on business requirements, ensuring a smooth and consistent user experience.
- Integrated RESTful APIs and handled data flow between mobile applications and backend services.

Fullstack Developer

2024-06 – 2025-05

PT. VICTORIA INVESTAMA, TBK | *Contract*

Employed by Padepokan Tujuh Sembilan

- Developed and maintained robust end-to-end web applications, utilizing Angular to build responsive user interfaces and NestJS to construct scalable server-side architectures.
- Engineered efficient data pipelines and storage solutions using MongoDB for flexible, document-based data management.
- Optimized application performance by implementing Redis for high-speed caching and session management.
- Designed asynchronous task processing and reliable message queuing systems using BullMQ to handle background jobs without blocking main application workflows.
- Collaborated directly with cross-functional teams in an onsite environment to gather business requirements, perform rapid troubleshooting, and ensure software deliverables met corporate standards.

Mobile Developer

2022-07 – 2022-12

CROP INSPIRASI DIGITAL | *Internship*

- Developed mobile applications for Android using the Flutter framework.
- Built responsive and intuitive user interfaces, translating UI/UX design mockups into functional mobile screens using customized Flutter widgets.
- Integrated RESTful APIs to fetch, process, and display dynamic data, ensuring seamless communication between the mobile application and backend services.
- Collaborated with the technical team to troubleshoot issues, debug code, and learn industry-standard mobile development workflows.

EDUCATION HISTORY

POLITEKNIK TEDC BANDUNG

2019-09 – 2023-08

Bachelor of Applied Technology in Informatics Engineering

Focused on Software Engineering, Web Development, and Mobile Application systems.

CERTIFICATIONS & TRAINING

PROJECTS

Civiku - Professional CV Builder 2026-06 – 2026-08

Role: Fullstack Developer | **Client:** Personal Project

A dynamic online CV generator built with Next.js. Features intuitive resume building using Zustand for efficient state management and a responsive, modern UI powered by Tailwind CSS and shadcn/ui.

Deeplink Diagnostics Tool 2026-05 – 2026-05

Role: Fullstack Developer | **Client:** Personal Project

A modern Next.js SPA that helps mobile developers instantly validate their server-side configurations for iOS Universal Links and Android App Links.

ITCH MME 2026-01 – 2026-04

Role: Backend Developer | **Client:** PT. Kustodian Sentral Efek Indonesia

Built a high-throughput data ingestion and transformation pipeline in C++. Managed the consumer process to collect exchange data into MongoDB and developed the parsing logic to extract, process, and load the data into MariaDB for the core ETL pipeline.

ZenDo

2026-05 – Present

Role: Android Developer | Client: Personal Project

A modern Android productivity app combining Pomodoro Technique with efficient Task Management. Built using the latest Android standards for a seamless focused experience.

Ardan Super Apps

2025-05 – 2026-06

Role: Mobile Developer | Client: PT. Radio Ardan Swaratama

A comprehensive digital transformation project for Ardan Radio, featuring a cross-platform mobile app and web integration to enhance listener community engagement.

Victoria Life Insurance Core System

2024-06 – 2025-05

Role: Fullstack Developer | Client: PT. Victoria Alife Indonesia

A high performance core system managing critical insurance operations like policy issuance and claims. Engineered to handle high transaction volumes of up to 8,000 certificates daily.

Workshop Management System

2023-06 – 2024-03

Role: Fullstack Developer | Client: PT. Layanan Prima Setia Jaya

A mobile application developed as my final project during my university studies. This application was created to facilitate students in reporting their internship activities and monitoring progress.

Aplikasi Praktik Kerja Lapangan Berbasis Mobile

2023-03 – 2023-08

Role: Fullstack Developer | Client: Politeknik TEDC Bandung

A mobile application developed as my final project during my university studies. This application was created to facilitate students in reporting their internship activities and monitoring progress.

E-Recruitment

2023-03 – 2023-06

Role: Frontend Developer | Client: PT. Padepokan Tujuh Sembilan

A website application for talent recruitment that can be used by users who will apply for jobs and human resources who select prospective employee.

Internal Management Web Application Office

2022-07 – 2022-12

Role: Mobile Developer | Client: PT. Crop Inspirasi Digital

A mobile application that can manage various websites owned by the office. This application can manage login activities for each of its web applications.
